FROM: John F. Phelan, Director

SUBJECT: Laughlin Bridge Weight Limit Request

It has been determined by the County Engineer, Bill Gille, that the bridge on Laughlin Road, approximately 1000 Feet from Oregon Highway 240, should be weight limited to 5 tons, effective immediately. This is based on the County Engineer's inspection of the bridge on October 16, 2018 and assessment that the bridge needs further evaluation of condition and possible repairs to restore the bridge to its customary capability. This request is being done out of an abundance of caution.

The bridge has been posted for this load limitation pending approval by the Board of Commissioners. This action will require some users to utilize alternate routes.

I recommend approval of this weight limitation on Laughlin Bridge. Please let me know if there are questions.

John F. Phelan, Public Works Director
