This is to request consideration of approving the following action regarding the following intersection in Yamhill County:

At the request of residents, I would like to install some entry level traffic control at the Masonville, Muddy Valley, and Eagle Point intersection, with Muddy Valley being the road that T's into the other two. I would install a yield sign for the northbound traffic on Muddy Valley. Recent traffic counts are roughly 650 ADT on Masonville, 450 on Muddy Valley and 225 on Eagle Point.

Photographs of the intersection from each direction are attached.

I am requesting that the Board approve this signage improvement. If there are any questions, please do not hesitate to contact me.
