**Yamhill County Health and Human Services**  
**FEE POLICY EFFECTIVE July 1, 2019**

Yamhill County Health and Human Services is funded by tax dollars and user fees. The fees are calculated based on the cost of providing the service. We are directed by our governmental funding sources to limit services to individuals of low and moderate incomes who are unable to access private services.

While no client is turned away because of inability to pay for services, we will charge fees to those clients who can pay. Our fee schedule is sliding, based upon an individual's or family's gross monthly income and number of dependents, and is typically determined at the time of the first visit. Whenever possible, we will bill private insurance companies, but the client is ultimately responsible for the portion not paid by insurance up to the amount on our sliding fee schedule.

1. Clients are expected to enter into a signed fee contract for payment of services.
2. Payment is requested on a "pay as you go" basis. This means that the amount, once it is agreed upon, should be paid at the time of each appointment. This way, the client will avoid the accumulation of a large balance and save the cost of billing.
3. The clinic's fees are based on the following schedule:
