Re: Transition from .40 caliber to 9 mm issued duty weapons – Request for Surplus Designation

In November 2019, B.O. 19-452 approved the expenditure to purchase new Glock 17s and 19s 9 mm handguns to replace the Glock .40 caliber handguns as issued duty weapons. In May 2020, B.O. 20-163 approved the declaring of 78 Glock 22s, 23s, and 27s as surplus. It was then discovered that six additional firearms needed to be surplused and that was approved in July 2020 as B.O. 20-223.

In our year-end inventory, it was discovered that three additional firearms need to be surplused to complete the transition away from Glock 22s and 23s. As with those previously declared surplus, these surplused weapons will be sold to staff or resold to a third-party firearms dealer at the fair market value resale set price.

Serial Number	Model
PLH933	G22
KTX791	G22
KTX790	G22

We also request to surplus the affiliated equipment (holsters and magazines).

In addition, it was discovered that a previously surplused firearm had the serial number transposed. DCW826, a G23 surplused under B.O. 20-163, should have been DCW862.

Please let me know if you have any questions.
