SWAC applicants list the ORS 459.320 Group Designation:

Information to assist the Board of Commissioners in considering your application (the back of this page may be used if more space is needed and a resume may be attached):

Yamhill County Public Health has historically lacked the resources or capacity to adequately address the public health implications of the built environment. But as we all now recognize, neighborhood safety, walkability and access to transit are all important social determinants of community health. As Public Health expands beyond what is traditionally considered its scope (communicable diseases, chronic conditions, health prevention/promotion, etc), issues such as housing and transportation equity are becoming increasingly important. It would be immensely valuable for Public Health to bring community health and equity expertise to this body and I would love to contribute not only my own thoughts, but those of our larger, highly skilled and knowledgeable Public Health team at Yamhill County. I'm excited about the opportunity to contribute and hope you'll consider my application.

Thanks so much,

Bill Michielsen, MPH, CPH

Public Health Division Manager
