A clear-vision area shall be maintained on the corner of any parcel at the intersection of any
two of the following: county roads, public roads, private roads serving four or more parcels, and railroads. A clear-vision area shall contain no sight-obscuring structures or plantings exceeding 30 inches in height within a triangle formed by the lot corner nearest the intersection, and the two points 20 feet from this corner as measured along the parcel lines adjacent to the intersection rights-of-way. Trees exceeding this height may be located such that their branches extend into this triangle, provided they are maintained to allow at least 12 feet of visual clearance within the triangle below the lowest hanging branches.

F. Height.

1. The maximum building height for any dwelling shall be 35 feet;

2. The maximum building height for all other structures shall be 45 feet; and

3. Appurtenances usually required to be placed above the roof level and not intended for human occupancy such as spires, belfries, cupolas, antennas, water tanks, ventilators, chimneys and wind generators are not subject to the height limitations of this ordinance.

G. Accessory Use Standards and Requirements.

An accessory use shall comply with the standards and limitations for principal uses except as follows:

1. Structures.

   a. No separate accessory structures shall be erected within 10 feet of any other building on the same parcel, except that a greenhouse for personal, noncommercial use may adjoin a dwelling.

   b. An accessory structure not more than 15 feet in height, at least 60 feet from a road, and at least 10 feet from any dwelling, may be located a minimum distance of three feet from the property line in a side yard or rear yard.

   c. A swimming pool may be located in a required rear yard, provided it lies a minimum of five feet from the rear property line.

2. Fences, Walls, and Hedges. Fences, walls and hedges may be permitted in any required yard or along the edge of any yard, subject to the clear-vision area requirements of Subsection 401.10 E.

One [travel trailer only] recreational vehicle shall be permitted to be parked on any parcel in conjunction with a principal dwelling, and may be used for the temporary accommodation of guests for a period of up to 30 days total in any year, [1], subject to the Type A application procedure set forth in Section 1301. In no case shall such a travel trailer be occupied for periods totalling more than three months in any year, and in [1] In no case shall any [travel trailer] recreational vehicle be used as a principal dwelling or rented [unless and until the necessary permits have been obtained].
H. Off-Street Parking.

1. In the F-80 District, prior to establishment of any dwelling, sufficient area must be provided to allow for at least one emergency vehicle turnaround.

2. Parking requirements for those uses which may generate traffic beyond what is normally expected in the F-80 District shall be determined by the Director subject to the provisions of Section 1007.

[401.11]

Restrictions on Certain Parcels that are a Part of a Noncontiguous Ownership

When a dwelling is authorized under Subsection 401.03 (B), the parcels of the noncontiguous ownership that are not to support the dwelling are subject to deed restrictions that prohibit residential development. The following requirements shall govern the deed covenants and restrictions and the county:

A. The applicant for a dwelling authorized under Subsection 401.03(A) or 2(P) shall provide evidence that covenants and restrictions, in a form approved by the county, have been recorded with the County Clerk of the county or counties where the property subject to the covenants and restrictions is located.

401.11 Permit Expiration Dates

A. Notwithstanding other provisions of this Ordinance, a discretionary decision, except for a land division, approving a proposed development in the Forestry zone is void two years from the date of the final decision if the development action is not initiated in that period. An extension period of up to 12 months may be granted if:

1. An applicant submits a written request for an extension prior to expiration of the development approval period, stating the reasons that prevented the applicant from beginning or continuing development within the approval period; and

2. The county determines that the applicant was unable to begin or continue development during the approval period for reasons for which the applicant was not responsible.

B. Approval of an extension granted under this rule is not a land-use decision described in ORS 197.015 and is not subject to appeal as a land-use decision.

C. Additional one-year extensions may be authorized where applicable criteria for the decision have not changed.

401.12 Definitions

The following terms apply only to Section 401, and have no relevance to the same term used in other sections of this ordinance unless specifically stated.

A. Auxiliary - A use or alteration of a structure or land which provides help or is directly associated with the conduct of a particular forest practice. An auxiliary structure is located on site, temporary in nature, and is not designed to remain for the forest's entire growth cycle.
from planting to harvesting. An auxiliary use is removed when a particular forest practice has concluded.

B. Campground - An area devoted to overnight temporary use for vacation, recreational or emergency purposes, but not for residential purposes. A camping site may be occupied by a tent, travel trailer or recreational vehicle. Campgrounds shall not include intensively developed recreational uses such as swimming pools, tennis courts, retail stores or gas stations. The park or campground may be public or private.

B. Commercial tree species - Trees recognized under rules adopted under ORS 527.715 for commercial production.

C. Forest operation - Any commercial activity relating to the growing or harvesting of any tree species as defined in ORS 527.620(6).

D. Tract - One or more contiguous lots or parcels under the same ownership. A tract shall not be considered to consist of less than the required acreage because it is crossed by a public road or waterway.
EXHIBIT "B" TO ORDINANCE 607

Explanations for amendments to Section 401 of the Yamhill County Zoning Ordinance as indicated in Exhibit A:

401.02(J) - The ordinance language in Section 402.02 of the ordinance is the same as ORS 215.283(1)(k) through (n), and this amendment would provide for cross-referencing within the zoning ordinance rather than having to refer to the ORS.

402.02(O) through (R) - Section 404.10 contains standards for exploration activities. These standards apply to exploration in all zoning districts where the use is allowed. The relettering is to correct an error.

401.03, introduction - All dwellings in the F-80 district are subject to Type A notice procedures.

401.03(A) - This amendment would combine subsections (A) and (B). The approval criteria are required by OAR 660-06-027.

401.03(B) - The term "lot of record dwelling" is used commonly throughout the state. Since there are so many different methods to qualify for a dwelling in farm and forest zones, staff feels that clarifying the type of dwelling will facilitate use of the ordinance.

A recent Court of Appeals decision (Craven v. Jackson County) clarified that the owner definition applies only to ORS 215.705(1)(a), which is identical to Section 401.03(C)(1). Moving the definition will help prevent the misapplication of the definition to other sections of the ordinance which contain the words "owner" or "ownership".

Criterion #7 has been removed because the provision for restocking is included in Section 401.08(C).

401.03(C) - This type of dwelling is commonly called a "forest template" dwelling. Using the common name will make the ordinance easier to use. The amendment in #2 is for consistency in wording with other subsections in the F and AF districts which have the same requirement. Criterion #3 is a requirement of OAR 660-06-027 for all dwellings on forest land.

401.04(D) - The addition of the word "not" is a correction. The reference to OAR 660-06-025(3)(l) is proposed to be replaced by referring to an identically worded section of the zoning ordinance. Section 404 contains requirements and operating standards for mining and exploration activities that apply to all such activities in any zoning district.

401.04(S) - The ordinance language in Section 402.04 of the ordinance is the same as ORS 215.283(2)(p) through (r) and 215.283(3), and this amendment would provide for cross-referencing within the zoning ordinance rather than having to refer to the ORS.

401.08(B) - Submittal of a well report is a requirement of OAR 660-06-029.
401.08(C) - SB 245 amended the stocking requirement to apply only to lots greater than 10 acres in size. Submittal of a stocking survey is mandatory for all types of dwellings on forest land.

401.09(C) - These amendments will bring the ordinance into compliance with OAR 660-06-035. Subsections (b) and (c) are options - the OAR states that if the property is not within a fire district or under contract for fire protection that the county "may provide an alternative means for protecting the dwelling from fire hazards. The means selected may include a fire sprinkling system, onsite equipment and water storage or other methods that are reasonable..." including the water supply required by subsection (c).

401.10(A)(3) - This provision was enacted by Chapter 700, Oregon Laws 1995 (SB 683).

401.10(A)(5) - This amendment will prevent a vacant parcel which does not meet the requirements for a dwelling from acquiring a dwelling through the lot line adjustment procedure.

401.10(B) - This amendment moves all the setback standards to one location.

401.10(G) - These setback standards have been moved to subsection (B).

Staff proposes reducing the time an RV can be occupied by guests to 30 days rather than 3 months, and eliminating the requirement for a permit. The references to "travel trailer" have been eliminated because future ordinance amendments to Section 202 include a new definition of "Recreational Vehicle" which includes travel trailers.

401.11 - These requirements have been moved to section 401.03(A) and replaced with the new section, permit expiration dates. OAR660-33-140(1) includes the expiration requirement, and it is desirable to have it in the ordinance so applicants will have the information.

401.12(D) - This provision is included in OAR 660-06-027(5).
