the Board, on its own motion, may order review of the decision of the Director within 15 days of the decision.

c. Determine the potential earning capability for each tract by multiplying the number of acres in each land class by the gross sales per acre for each land class provided by the Land Conservation and Development Commission pursuant to OAR 660-33-135(4). 2. The use will not significantly increase the cost of accepted farming or forest practices on surrounding lands devoted to farm or forest use.

B. A personal-use airport as used in this section means an airstrip restricted, except for aircraft emergencies, to use by the owner, and on an infrequent and occasional basis, by invited guests, and by commercial aviation activities in connection with agricultural operations. No aircraft may be based on a personal-use airport other than those owned or controlled by the owner of the airstrip. 403.08 [Disqualification from Farm or Forest Deferral and Declaratory Statement for Nonfarm Dwelling]

A. Disqualification.

Prior to issuance of any residential building permit for an approved nonfarm dwelling on a nonfarm parcel, the applicant shall provide evidence that the county assessor has disqualified the lot or parcel for valuation at true cash value for farm or forest use; and that additional tax or penalty has been imposed, if any is applicable, as provided by ORS 308.370 or 308.765 or ORS 321.332, 321.730, and 321.815. A parcel that has been disqualified under this subsection shall not requalify for special assessment unless, when combined with another contiguous parcel, it constitutes a qualifying parcel.

B. Declaratory Statement.
Prior to issuance of any residential building permit for an approved nonfarm dwelling, the landowner may be required to sign an affidavit acknowledging the following declaratory statement and record it in the deed and mortgage records for Yamhill County:

"The subject property is located in an area designated by Yamhill County for agricultural uses. It is the county policy to protect agricultural operations from conflicting land uses in such designated areas. Accepted agricultural practices in this area may create inconveniences for the owners or occupants of this property. However, Yamhill County does not consider it the agricultural operator's responsibility to modify accepted practices to accommodate the owner or occupants of this property, with the exception of such operator's violation of state law."

**Permit Expiration Dates**

A. **Notwithstanding other provisions of this Ordinance, a discretionary decision, except for a land division, approving a proposed development in the Agriculture Forestry Large Holding district is void two years from the date of the final decision if the development action is not initiated in that period. An extension period of up to 12 months may be granted if:**

1. **An applicant makes a written request for an extension prior to expiration of the development approval period, stating the reasons that prevented the applicant from beginning or continuing development within the approval period; and**

2. **The Planning Director determines that the applicant was unable to begin or continue development during the approval period for reasons for which the applicant was not responsible.**

B. **Approval or denial of an extension granted under this rule is an administrative decision, is not a land-use decision described in ORS 197.015, and is not subject to appeal as a land-use decision. However, the Board, on its own motion, may order review of the decision of the Director within 15 days of the decision.**

C. **Additional one-year extensions may be authorized by the Planning Director where applicable criteria for the decision have not changed.**

**403.09 Siting Standards for Dwellings and Structures.**

The following [fire] siting standards shall apply to all new dwellings on forest land:

A. **Relevant physical and locational factors including, but not limited to, topography, prevailing winds, access, surrounding land use and source of domestic water shall be used to identify a site which:**

1. **Has the least impact on nearby or adjacent lands zoned for forest or agricultural use;**
2. Ensures that adverse impacts on forest operations and accepted farming practices on the tract will be minimized;

3. Minimizes the amount of forest lands used for the building sites, road access and service corridors; and

4. Minimizes the risk associated with wildfire.

B. The applicant shall provide evidence that the domestic water supply, if any, is from a source authorized in accordance with the Department of Water Resources Oregon Administrative Rules for the appropriation of ground water (OAR 690, Division 10) or surface water (OAR 690, Division 20) and not from a Class II stream as defined in the Forest Practices Rule (OAR 629-24-101(3)). If the water supply is from a well, a copy of the well constructor's report shall be submitted to the county upon completion of the well. If the water supply is unavailable from public sources or sources located entirely on the subject property, then the applicant shall provide evidence that a legal easement has been obtained permitting domestic water lines to cross the properties of affected owners.

C. As a condition of approval for a dwelling under subsections 403.03[(L) through (N)] the county shall require that the tract that is the site of the dwelling meets the stocking and survival requirements of ORS 527.610 to 527.770. The property owner shall submit a stocking survey report to the County Assessor and the Assessor shall verify that the minimum stocking requirements have been met.

403.10 Fire Siting and Construction Standards for Dwellings and Structures

The following fire siting standards shall apply to all new dwellings or permanent structures on forest land:

All trees shall be pruned to at least eight feet in height. Dead fuels shall be removed.

G. A secondary firebreak of not less than [50] 100 feet outside the primary firebreak shall also be constructed. The fire break is only required to be constructed on land surrounding the dwelling that is owned or controlled by the owner. Vegetation within the secondary firebreak should be pruned and spaced so that fire will not spread between crowns of trees. Small trees and brush growing underneath larger trees should be removed to prevent spread of fire into the crowns of the larger trees. Dead fuels shall be removed. The secondary fire break shall be increased to 150 feet if the dwelling or structure is located on a slope of greater than 25% or other fire hazards exist.

H. No portion of a tree or any other vegetation shall extend to within 15 feet of the outlet of a stovepipe or chimney.

LANDING FIELDS AND PUBLIC AIRPORTS]

Airport Overlay District (AP)

Areas of Concern

There are 3 public airport or landing facilities in the county which come under the provisions of this section. These airports currently include McMinnville, Sheridan, and Sportsman Air Park in Newberg. Areas of concern around each of these facilities are delineated on the official zoning map as the Airport Overlay District. Nonpublic use, private landing strips and heliports are not delineated but may still be subject to applicable regulations.

Standards and Requirements.

The following standards shall apply to all landing field and public airport improvements, and to improvements on all adjacent properties affected by such standards as delineated on the Official Zoning Map:

A. Uses within the Airport Overlay District

All structures and uses within the Airport Overlay District shall conform to the requirements of Federal Aviation Regulations (F.A.R.) Part 77, or successor, and to other federal and state laws regulating structural height, smoke, steam or dust and other hazards to flight, air navigation, or public health, safety and welfare. The Airport Overlay District has been further regulated as follows:

1. Approach Zones.

[a.] The following uses are prohibited except as required for airport use:

a. [(I)] Places of public assembly.

b. [(ii)] Residential density greater than one dwelling per five acres except as allowed in the underlying zone existing prior to the date of adoption of this ordinance.

c. [(iii)] Retirement homes and other residential institutions.

d. [(iv)] Hospitals.

e. [(v)] Schools.
f. [(vi)] Aggregate extraction where ponding and birds pose a strike hazard.

g. [(vii)] Storage of hazardous material as defined by the National Fire Protection Association (NFPA).

h. [(viii)] Communications towers.

i. [(ix)] Solid waste disposal sites.

j. [(x)] Commercial or industrial use with potential operations hazards such as electrical interference, high intensity lighting, smoke, glare, noise, etc.

k. [(xi)] All other uses as listed in the underlying zone with a hold harmless agreement and navigational easement.

2. Clear Zones

a. [(I)] The clear zone shall be free of any construction or obstacle and shall be minimally used by people.

b. [(ii)] Agriculture which does not attract birds is permitted. No structures are allowed.

c. [(iii)] Above ground power lines are prohibited.

d. [(iv)] Airport clear zones are subject to the conditions as shown in the airport's master plan.

3. Transition Zones

In the areas lying within the limits of the transition zones beyond the perimeter of the horizontal [zones] surface, no approval shall be required for any tree or structure less than fifty feet of vertical height about the ground, except when such tree or structure because of terrain, land contour, or topographic features, would extend above the height limit prescribed for such transition zones. Nothing contained in any of the foregoing exceptions shall be construed as permitting or intending to permit any construction or alteration of any structure, or growth of any tree in excess of any of the height limits established by this ordinance.

C. Prohibited Uses

Regardless of any other provisions of this ordinance, no use may be made of land or water within any area covered by this ordinance in such a manner as to create
electrical interference with navigational signals or radio communication between
the airport and aircraft, make it difficult for pilots to distinguish between airport
lights and other lights, result in glare in the eyes of pilots using the airport, impair
visibility in the vicinity of the airport, create bird strike hazards, or otherwise in
any way endanger or interfere with the landing, takeoff, or maneuvering of
aircraft intending to use the airport.

D. Exceptions.

1. In the area lying within the limits of the horizontal [zone] surface and
conical [zone] surface, no permit shall be required for any tree or
structure less than fifty feet of vertical height above the ground, except
when, because of terrain, land contour, or topographic features, such tree
or structure would extend above the height limit prescribed for such
approach zones.

E. Height Limitations.

Except as otherwise provided in this section, no structure shall be erected, altered,
or maintained, and no tree shall be allowed to grow to a height in excess of the
applicable height limitations established in accordance with Federal Aviation
Regulations (F.A.R.), Part 77, "Object Affecting Navigable Airspace".

F. Marking and Lighting.

The owner of any existing nonconforming structure or tree is hereby required to
permit the installation, operation, and maintenance thereon of such markers and
lights as shall be deemed necessary by the county to indicate to the operators or
aircraft in the vicinity of the airport the presence of such airport obstruction.
Such markers and lights shall be installed, operated, and maintained at the
expense of the airport owner.

G. Variances.

Any person desiring to erect or increase the growth of any tree, or use property
not in accordance with the regulations prescribed in this section, may apply for a
variance from such regulations pursuant to Section 1203 for variances. The
application for variance shall be accompanied by a determination from the
Federal Aviation Administration and the Department of Transportation,
Aeronautics Division, as to the effect of the proposal on operation of air
navigation facilities and the safe, efficient use of navigable airspace. Such
variances may be allowed where the requirements of Section 1203 have been met
and it is found that the relief granted will not be contrary to the public interest and
will not create a hazard to air navigation. Additionally, no application for
variance to the requirements of this section may be approved unless a copy of the
application has been furnished to the airport owner for comment as to the

aeronautical effects of the variance. Failure of the airport owner to respond to the request for comments shall not prevent the county from taking final action on the variance application.

907.03 Definitions

A. Airport Hazard: Any structure, tree, or use of land which exceeds height limits established by the Airport Imaginary Surfaces.

B. Airport Imaginary Surfaces: Those imaginary areas in space which are defined by the approach zone, clear zone, transitional zone, horizontal surface, and conical surface and in which any object extending above these imaginary zones and surfaces is an obstruction.

C. Approach Zone: A surface longitudinally centered on the extended runway centerline and extending outward and upward from each end of the primary surface. The inner edge of the approach zone is the same width as the primary surface and extends to a width of: 1250 feet for a utility runway having only visual approaches; 1500 feet for a runway other than a utility runway having only visual approaches; 2000 feet for a utility runway having a nonprecision instrument approach; and 3500 feet for a nonprecision instrument runway other than utility, having visibility minimums greater than three-fourths of a statute mile. The approach zone extends for a horizontal distance of 5000 feet at a slope of 20:1, horizontal:vertical for all utility and visual runways and 10,000 feet at a slope of 34:1 for all nonprecision instrument runways other than utility.

D. Clear Zone: Extends at the same slope and horizontal angle as the approach zone from the primary surface to a point where the approach zone is 50 feet above the runway end elevation.

E. Conical Surface: A surface extending upward at a slope of 20:1 for a distance of 4,000 feet from the periphery of the horizontal surface.

F. Horizontal Surface: A horizontal plane 150 feet above the established airport elevation, the perimeter of which is constructed by swinging arcs of 5,000 feet from the center of each end of the primary surface of each visual or utility runway, and 10,000 feet from the center of each end of the primary surface of all other runways and connecting the adjacent arcs by lines tangent to those areas.

G. Place of Public Assembly: A structure or place which the public may enter for such purposes as deliberation, education, worship, shopping, entertainment, amusement, awaiting transportation or similar activity.
H. **Primary Surface:** A surface longitudinally centered on a runway. When the runway has a specially prepared hard surface, the primary surface extends 200 feet beyond each end of that runway. When the runway has no specially prepared hard surface, or planned hard surface, the primary surface ends at each end of that runway. The width of the primary surface is 250 feet for utility runways having only visual approaches, 500 feet for utility runways having nonprecision instrument approaches and 500 feet for other than utility runways.

I. **Transitional Zones:** A surface extending upward at a slope of 7:1 beginning on each side of the primary surface, and from the sides of the approach zones, then extending upward to a height of 150 feet above the airport elevation.

J. **Utility runway:** A runway that is constructed and intended to be used by propeller driven aircraft of 12,500 pounds maximum gross weight or less.

YAMHILL COUNTY LAND DIVISION ORDINANCE

1. Section 1 of the Yamhill County Land Division Ordinance shall be amended to reference the amendments made by this ordinance, as follows:

1.000 TITLE This ordinance shall be known and may be cited or pleaded as the Yamhill County Land Division Ordinance No. 205, 1979, as amended by Ordinance 497, 1989, [and] Ordinance 529, 1992, and Ordinance ***, 1998.

2. Section 3.010, Definitions, shall be amended as follows:

3.010 DEFINITIONS. For the purpose of this ordinance, the following words and phrases shall mean:

41. Partition Land - To divide an area or tract of land into two or three parcels within a calendar year. "Partition land" does not include:

A. Divisions of land resulting from the creation of cemetery lots;

B. Adjustment of a lot line by the relocation of a common boundary where an additional parcel is not created and where the existing parcel reduced in size by the adjustment is not reduced below the minimum lot size established by any applicable zoning ordinance complies with the Yamhill County Zoning Ordinance;

C. The sale of a lot in a recorded subdivision, even though the lot may have been acquired with other contiguous lots or property by a single owner;

D. The sale of an interest in timber;

E. A division of land resulting from a lien foreclosure or foreclosure of a recorded contract for the sale of real property; [or]

F. A sale or grant by a person to a public agency or public body for state highway, county road, city street or other right-of-way purposes provided that such road or right-of-way complies with the applicable comprehensive plan and ORS 215.283(2)(p) to (r). However, any property divided by the sale or grant of property for state highway, county road, or other right of way purposes shall continue to be considered a single unit of land until such time as the property is further subdivided or partitioned; or

G. The division of land resulting from the recording of a subdivision or condominium plat.
42. Partition Plat - Includes a final map and other writing containing all the descriptions, locations, specifications, provisions and information concerning a [major or minor] partition.

3. Section 9, Supplemental Provisions, shall be amended as follows:

9.010 SUBDIVISION OF AGRICULTURE AND FOREST LANDS - It is the intent of Yamhill County to concentrate the major portion of its population within the rural development and urbanizable areas. It is also the intent of the county to preserve, wherever possible, the productive timber and agricultural lands of the county and to ensure that the rural character of an area is not compromised by overdevelopment resulting in excessive traffic, polluted soil and water supplies, or land use conflicts between farm and nonfarm interests, resulting in the costly extension of public services. Therefore, the creation of four or more lots on a single parcel within one calendar year shall not be permitted in the [F-40, EF-40 or AF-20 zones] Forest, Exclusive Farm Use, or Agriculture/Forestry Large Holding districts as indicated on the official zoning map of Yamhill County.

4. Subsections 9.015 and 9.020 shall be deleted, as follows:

[9.015 STANDARDS AND CRITERIA FOR FARM ZONE PARTITIONS

In an EF-40 or AF-20 zone, the following standards and criteria shall apply to the creation of parcels for retirement or functional purposes, or for the preservation of an historical residence. Both parcels to be created shall conform to the minimum parcel size specified in Yamhill County Zoning Ordinance No. 310 as amended, Subsection 402.09 or 403.09 in an EF-40 or AF-20 zone, respectively. Nonfarm parcels to be created shall be disqualified from special assessment and shall otherwise be in compliance with Section 402.08 or 403.08. In addition, nonfarm parcels created for nonfarm dwellings shall be in compliance with Section 402.07 or 403.07, in an EF-40 or AF-20 zone, respectively:

1. Creation of a parcel of less than 40 acres in an EF-40 zone or 20 acres in an AF-20 zone partitioned from an existing parcel of greater than those acreages, which is to be used to provide a retirement residence for a farm owner who has owned the parcel for a minimum of five years, subject to the following:

A. The dwelling for retirement purposes shall have nonfarm dwelling conditional use approval, if it is to be located on a nonfarm parcel.

B. Approval of the request will not reduce in size the largest of the two parcels being created below the minimum lot size for a farm parcel allowed in the zone.

C. The parcel created to accommodate the dwelling shall include no more than three acres of land, unless soil conditions, topography or other unique circumstances require a greater land area;
D. The parcel created to accommodate the dwelling shall not be less than one acre;

E. The remaining larger parcel shall not be partitioned further under this provision for a period of 15 years;

F. The purpose of the partition shall be for retirement thereon;

G. Evidence is submitted that the property has been in farm or forest use and that the remaining larger parcel shall continue in farm or forest use; and

H. For the purpose of determining density of development for residential purposes, the smaller parcel shall be considered with the original parcel as if the property had never been divided and appropriate conditions may be imposed to ensure compliance with this requirement.

2. Creation of a parcel of less than 40 acres in an EF-40 zone or 20 acres in an AF-20 zone that is functionally divided from the remainder of the subject property by a major cultural feature or major natural feature, subject to the following:

A. Approval of the request will not reduce in size the largest of the two parcels being created below the minimum lot size for a farm parcel allowed in the zone.

B. The natural or cultural division of the property must result in exceptional and unique practical difficulties to the farm or forest management practices applied to the land under consideration;

C. No parcel created under this subsection shall be less than two acres in size.

D. For the purpose of determining density of development for residential purposes, the smaller parcel shall be considered with the original parcel as if the property had never been divided. Appropriate conditions may be imposed to ensure compliance with this requirement.

E. Any dwelling proposed for either parcel shall be subject to either Section 402.06 and 403.06 of the county zoning ordinance for farm or forest dwelling, or to zoning ordinance provisions for a nonfarm/nonforest dwelling, whichever are applicable.

F. If the parcel to be created is not to continue in farm or forest uses, additional justification shall be provided that:

1. The natural or cultural feature is physically unique to the subject property and is not commonly shared by other properties in the vicinity or zoning districts; and

2. The division will not directly result in the creation of other
land uses that may be incompatible with accepted farm or forestry practices.

3. Creation of a nonfarm parcel, partitioned from the parent parcel for the purpose of providing separate ownership of dwellings already existing prior to February 11, 1976, on the parcel to be partitioned. Any partitioning accomplished under this section shall be subject to the following criteria:

A. The secondary dwelling to be separated shall have nonfarm dwelling conditional use approval, if it is to be located on a nonfarm parcel.

B. The secondary dwelling shall have or can be provided with water and sewage disposal systems suitable for permanent and continuous use, and shall either be habitable and suitable for year-round occupancy without requiring improvement or shall be suitable for restoration and listed on the National Register of Historic Places as specified in ORS 358.480.

C. No such secondary dwelling shall have been previously approved as a secondary dwelling for farm help, a guest house, or a temporary mobile home for family members requiring special care.

D. If the parent parcel exceeds the minimum zoning acreage requirements, the parcel to be created shall be no smaller than one acre nor greater than three acres, unless soil conditions, topography or other unique circumstances require a greater land area.

9.020 PARK REQUIREMENTS - ALL LAND DIVISIONS - The Director, the Commission, or Hearings Officer shall require a fee, to be determined by order of the Board, for each parcel created by land division to be paid into the Yamhill County Park Trust Fund upon submission of the final plat to the Planning Department.

1. Expenditure of Funds. All funds received shall be credited to a park acquisition, development and maintenance trust fund and shall be deposited with the county treasurer for the purpose of acquiring, or developing suitable sites for parks or for maintaining or further developing existing parks. Such funds shall be expended only on order of the Board for the purpose of acquiring, developing or maintaining lands for park and recreational uses, and then only for such lands as the Board shall approve as suitable and adaptable for such purpose and in the area impacted by the development.

2. No proposed land division shall receive final plat approval until the park fee has been assessed and paid in accordance with this ordinance.

5. Section 10 of the Land Division Ordinance shall be amended as follows:

10.030 COUNTY SURVEYOR - FINAL REVIEW

1. The County Surveyor shall review the [major or minor] partition plat and
accompanying material to ensure the sufficiency of affidavits, the correctness of
surveying data, the accuracy of mathematical data and computations, and compliance
with the requirements of this ordinance and Chapter 92 of the Oregon Revised
Statutes (ORS). The County Surveyor shall recommend approval of the [major or
minor] partition plat unless the County Surveyor makes a specific finding that the plat
does not comply to one or more of the above-stated requirements.

6. Section 11.100 of the Land Division Ordinance shall be amended to make the following
correction:

11.100 EXPIRATION OF APPROVAL - SUBDIVISION - The preliminary subdivision
approval shall be null and void and final approval shall not be granted if:

3. The final subdivision plat is not recorded within 90 days from the date the
final subdivision application is submitted to the Director, because of deficiencies
within the final [partition] subdivision application and not from delays resulting from
the processing by the county of the final subdivision application.

EXHIBIT “F” TO ORDINANCE 643

The following are explanations for the ordinance amendments contained in Exhibits A through E of Ordinance 643. The explanation indicates whether the amendment is “required” or a “housekeeping” item.

Exhibit A:

1. **Housekeeping.** Deletes definitions of terms that are no longer used anywhere in the ordinance.

2. **Required.** Adds definitions for residential facility and residential home from ORS 197.660.

3. **Required.** ORS 197.660 requires that jurisdictions allow placement of residential homes in any residential and commercial zone that allows single family dwellings.

4. **Housekeeping.** These amendments are to make the listing of zoning districts current.

5. **Required.** ORS 215.720(1) was amended in 1997 to allow certain forest service roads to be considered as complying with requirements for a lot of record dwelling.

6. **Required.** ORS 215.283(2)(k) was amended to allow the use of an existing building as a temporary hardship residence.

7. **Required.** ORS 215.730(1)(a)(G) was amended to require a firebreak to be constructed only on land controlled by the dwelling’s owner. **Housekeeping.** OAR 660-06-035(3) requires that the primary and secondary firebreaks be in accordance with the provisions in “Recommended Fire Siting Standards for Dwellings and Structures and Fire Safety Design Standards for Roads” dated March 1, 1991 and published by the Oregon Department of Forestry. That publication includes the language concerning distance of the firebreak and the removal or management of vegetation.

8. **Housekeeping.** This language is included in the criteria for a lot line adjustment in the AF district. Similar language is also contained in the EF district. This amendment adds it to the Forestry District as well.

9. **Housekeeping.** Subsection 502.06(J) contains limitations on the number of livestock that may be kept on parcels in the VLDR district, based on the size of the parcel. This amendment includes that information under the farm use definition.

10. **Housekeeping.** Section 404.10 contains application procedures, approval criteria and operating standards for exploration activities. These standards should apply regardless of the zoning district. Section 404.10 also specifies that the Type A application procedure is used if exploration is listed as a permitted use in the underlying zoning district, and the
Type B application procedure is used if exploration is listed as a conditional use, so it is not necessary to include the application procedure in the other zones.

11. Housekeeping. When the Watershed Overlay and Scenic Waterway Overlay districts were adopted, no map designations were included.

12. Housekeeping to correct errors in citation.

13. Housekeeping to clarify the process for an exception.

15. Required. The notification distances are requirements of ORS 197.763, although the amendment is more restrictive than the ORS for parcels that are partially within a UGB, by making the notice distance 250’ rather than the 100’ required by the statute.

Required. Any first hearing, which would be the case in the appeal of a Planning Director’s decision, is required to be de novo pursuant to ORS 215.416(11).

Required. Not requesting a hearing does not negate the right to appeal a decision.

Exhibit B:

402.02(E) - Housekeeping. The setbacks for a livestock feeding yard were moved to Section 402.09(C)(1).

Required. The new language in (E) was added by SB 588 (1997) and is found in ORS 215.283(1)(u).

402.02(J) - Housekeeping. Section 404.10 contains standards for exploration activities, which apply to exploration in all zoning districts where the use is allowed.

402.02(L) - Required. The new language was adopted by the last legislature as part of ORS 215.283(1)(l).

402.02(M) - Required. The new language was adopted by the last legislature as part of ORS 215.283(1)(l).

402.02(N) and (O) - Required. Schools and churches are listed in ORS 215.283(1). The Brentmar decision indicates that they must be allowed as permitted uses rather than conditional uses, since conditional use approval is subject to conformance with approval criteria. According to an Attorney General opinion, Brentmar did not supersede the OARs, which require review of the request and that the uses be at least 3 miles from a UGB. The Planning Commission wanted to consider the Type of application procedure at a later date, so a blank is being used at this time.

402.02(P) and (Q) - Required. Model aircraft sites and on-site filming were added as new uses to ORS 215.283(1) in 1997.

402.03(A) through (F) - Required. The approval criteria for principal and secondary dwellings customarily provided in conjunction with farm use were amended by OAR 660-33 after the county
ordinance was amended to comply with HB 3661. Sections A through E incorporate the
administrative rule requirements.

402.03(I)(6) - Required. A limitation of one dwelling per tract is included as a criterion for approval
of all other types of principal dwellings, so was added here for consistency. (7) and (8) -
Housekeeping. This amendment moves the provisions of the original 402.08 to this subsection so
that all the approval criteria for a nonfarm dwelling are in the same place.

402.04(A) - Required. OAR 660-33 was amended several years ago to delete the provision for non-
medical hardship dwellings. ORS 215.283 (2)(k) was amended in 1997 to allow the use of an
existing building for a health hardship dwelling.

402.04(E), (L) and (O) - Required. Kennels, golf courses, private parks, playgrounds, and
campgrounds are not allowed on high-value farmland pursuant to OAR 660-33, although existing
uses on high-value farmland may be "maintained, enhanced or expanded, subject to other
requirements of law".

402.04(F) - Required. ORS 215.283(2)(o) allows propagation, cultivation, maintenance and
harvesting of insect species in a farm zone as a conditional use.

402.04(G) - Required. This language was added in 1997 to ORS 215.283(1)(u).

402.04(N) - Housekeeping. OAR 660-12, the Transportation Planning Rule, was adopted in 1995. It
contains provisions and regulations for all transportation facilities. Under the rule, a goal exception is
not always required for a new transportation facility.

402.07(A) - Required. This will correct the wording to comply with ORS 215.296.

402.07(D) - Required. The limitations on tract size are found in OAR 660-33.

402.08 - Housekeeping. The provisions being deleted were moved to 402.03(I) in order to
consolidate the requirements for a non-farm dwelling in one section. The proposed new language
concerning permit expirations is contained in the OARs.

402.09(B)(2) - Housekeeping. This amendment will prevent a vacant parcel which does not meet the
requirements for a dwelling from acquiring a dwelling through the lot line adjustment procedure.

402.09(C) - Housekeeping. Setbacks for livestock feeding and sales yards were moved from
subsection 402.02(E).

402.10(C) - Required. The amendments to the definition of farm use were made in 1995 and 1997,
and are found in 215.203(2).

402.10(H) - Required. The Brentmar decision indicates that the standard concerning leased vineyards
must be removed because it is a county standard that is more restrictive than ORS 215.283(1). The
standard that the vineyards must be planted is a requirement of ORS 215.452.
Exhibit C:

403.02(E) - Housekeeping. The setbacks for a livestock feeding yard were moved to Section 402.09(C)(1). Required. The new language in (E) was added by SB 588 (1997) and is found in ORS 215.283(1)(u).

403.02(K) - Required. The new language was adopted by the last legislature as part of ORS 215.283(1)(l).

403.02(N) - Required. The new language was adopted by the last legislature as part of ORS 215.283(1)(l).

403.02(R) - Required. Caretaker residences are authorized by administrative rule.

403.02(U) and (V) - Required. Schools and churches are listed in ORS 215.283(1). The Brentmar decision indicates that they must be allowed as permitted uses rather than conditional uses, since conditional use approval is subject to conformance with approval criteria. According to an Attorney General opinion, Brentmar did not supersede the OARs, which require review of the request and that the uses be at least 3 miles from a UGB. The Planning Commission wanted to consider the Type of application procedure at a later date, so a blank is being used at this time.

403.02(W) and (X) - Required. Model aircraft sites and on-site filming were added as new uses to ORS 215.283(1) in 1997.

403.03(A) through (F) - Required. The approval criteria for principal and secondary dwellings customarily provided in conjunction with farm use were amended by OAR 660-33 after the county ordinance was amended to comply with HB 3661. Sections A through E incorporate the administrative rule requirements.

403.03(I) - Required. Criterion #6, which prohibited non-farm dwellings on lots that have received a forest deferral, is removed and a provision included that the tract not already have a dwelling, which is a requirement for all types of dwelling.

Housekeeping. The provisions of Section 403.08 are moved directly to this section so that all of the nonfarm dwelling requirements are in one location.

403.03(J) - Required. The criterion regarding a forest tax deferral is not a statutory or rule requirement, so has been removed. The new language in (S) is required by OAR 660-33-130(4)(b).

Housekeeping. The provisions of Section 403.08 are moved directly to this section so that all of the nonfarm dwelling requirements are in one location.

403.03(N) - Required. The approval criteria are required by OAR 660-06-027.

403.03(O) - ORS 215.720(1) was amended in 1997 to allow certain forest service roads to be considered as complying with requirements for a lot of record dwelling.
403.03(P) and (Q) - Required. The criterion concerning Comp Plan policies is required by ORS 215.750(4)(b).

403.04(A) - Required. OAR 660-33 was amended several years ago to delete the provision for non-medical hardship dwellings. ORS 215.283 (2)(k) was amended in 1997 to allow the use of an existing building for a health hardship dwelling.

403.04(E), (L) and (N) - Required. Kennels, golf courses, private parks, playgrounds, and campgrounds are not allowed on high-value farmland pursuant to OAR 660-33, although existing uses on high-value farmland may be "maintained, enhanced or expanded, subject to other requirements of law".

403.04(G) - Required. ORS 215.283(2)(o) allows propagation, cultivation, maintenance and harvesting of insect species in a farm zone as a conditional use.

403.04(J) - Housekeeping. OAR 660-12, the Transportation Planning Rule, was adopted in 1995. It contains provisions and regulations for all transportation facilities. Under the rule, a goal exception is not always required for a new transportation facility.

403.04(M) - Required. The limitations on tract size are found in OAR 660-33.

403.07(C) - Required by OAR 660-33.

403.08 - Housekeeping. The provisions being deleted were moved in order to consolidate the requirements for a non-farm dwelling in one section. The proposed new language concerning permit expireds is contained in the OARs.

403.09 - Housekeeping. The amendment stating the section applies to dwellings on forest land is for clarification. (B) - Required. Submittal of a well report is a requirement of OAR 660-06-029.

403.10(C) - Required. The amendments bring the ordinance into compliance with OAR 660-06-035.

403.10(F) and (G) - Housekeeping. ORS 215.730(1)(a)(G) was amended to require a firebreak to be constructed only on land controlled by the dwelling’s owner.

Housekeeping. OAR 660-06-035(3) requires that the primary and secondary firebreaks be in accordance with the provisions in “Recommended Fire Siting Standards for Dwellings and Structures and Fire Safety Design Standards for Roads” dated March 1, 1991 and published by the Oregon Department of Forestry. That publication includes the language contained in this amendment.

403.11(B) - Housekeeping. The amendment in (d) will prevent a vacant parcel which does not meet the requirements for a dwelling from acquiring a dwelling through the lot line adjustment procedure.
403.11(C) - Housekeeping. Setbacks for livestock feeding and sales yards were moved from subsection 403.02(E).

403.12(E) - Required. The amendments to the definition of farm use were made in 1995 and 1997, and are found in 215.203(2).

403.12(K) - Required. The definition of winery was mistakenly not included in the AF district. The definition, except for #3, is taken from ORS 215.452. #3 is language identical to that adopted in the EF zone.

Exhibit D:

907 - Housekeeping. The Landing Field and Public Airport section of the zoning ordinance is an overlay district. The entire section has been renumbered from 1011 to 907 and renamed to reflect that it is an overlay.

907.03 - The definitions were originally adopted as amendments to Section 202, the general definition section of the zoning ordinance. Since they apply only to the Airport Overlay District, they were included in this section.

Exhibit E:

1. Housekeeping. The number of the adopting Board ordinance will be added.

2. Required. The amendment to the definition in 3.010(B) conforms to the definition in ORS 92.010, and also is necessary to reflect that lot line adjustments can be approved for lots that are already below the minimum lot size for the zone. The added language in 3.010(F) is included in the definition in ORS 92.010, having been added by the 1993 legislature.

3. Housekeeping. The amendment to 9.010 reflects changes in zoning designations. Required. Subsections 9.015 and 9.020 are deleted because they are no longer applicable. The partitions listed in 9.015 are no longer allowed under state laws. The park fee requirement in 9.020 has been replaced by a systems development charge for new development in the Chehalem Park and Recreation District.

4. Required. State statues no longer contain the terms major and minor partition.

5. Housekeeping. The amendment to 11.100 is to correct an error.
