Colleagues,

Attached is the newest iteration of the COVID-19 Investigative Guidelines. The document can also be found online [here](#). The December 2022 updates include:

- Streamlined vaccine and treatment information in section 2.7 with references to federal guidance
- In alignment with CDC, combined guidance for non-healthcare congregate setting and carceral settings into one section (8.2). The updates general remove the requirement for quarantine, but outline how facilities can continue to implement; offer guidance on enhanced preventative measures and how facilities can implement risk assessments; and options for offering a 7 day quarantine
- Removed information on the REDCap Case Survey, including related criteria in the presumptive case definition
- Removed links to retired guidance documents
- Added additional guidance on data management in Opera Outbreaks
