**EDUCATIONAL BACKGROUND:** Sunset High; Cal State University, Hayward; Cal State University, Long Beach; Masters in Education

**PRIOR GOVERNMENTAL EXPERIENCE:** None

I would like to serve on your School Board. There are no "Boards," whether they be corporate, public, private or non-profit that do not include people with experience in their endeavor...except for School Boards. Our present School Board has no one with any background or experience in the field of education. I would like to bring my lifetime of experience, in Education, to add as an important and essential ingredient to the Board's goals, deliberation and future mission.

Our children deserve to be educated in a culture that is positive, nurturing and a safe environment. I want to represent the community's interest in our educational process. I will give you my best decisions, wherein the interest of the students is my base concern. I hold the highest standards for our children and school leaders. We need to challenge our employees to excel and innovate, AND we also need our parents and children to strive for excellence.

As a teacher in the McMinnville School District, I have had the pleasure of teaching thousands of students in our community, supporting their parents, and working with hundreds of dedicated colleagues. I, myself, learned many a lesson during these years, adapting to new standards, policies and personalities. I have spent many hours outside the classroom advocating for students and staff. As our schools continue to face great challenges, it has been my passion to seek ways to overcome them through my involvement in various educational organizations.

Our district is a sound one. Can we do better? I think so. I will bring my experience and ideas forward with the eye of improving and making it better. I am asking for your vote.

Being involved as a parent provides internal perspective to the role of school board member. My terms on site council and previous board member at Bethel Christian School have given me experience in critical thinking and problem solving. It has also given me a unique perspective on private and public education and the challenges both sides of the spectrum face. As the director of Sunday Supper I have lead teams and sub committees, inspired 120 volunteers to faithfully serve week after week, year after year and have learned to work with a large variance of personalities and gifted people. As a father of two very fantastic boys, one of whom is in our public school system, I'm passionate about their success. We rely on a solid education to prepare our children to become successful adults. A child's education can be a rewarding experience when dedicated teachers partner with parents and are supported by a school board that sets above-average standards and offers consistent support. Economic challenges are not an excuse for limiting or lowering the expectations of our kids' education. We rely on fiscal stability and academic accountability while doing what is right for our kids. I was proud to serve our country, and I would be honored to serve our community.
