I have been a member of the Dayton School Board for the past four years, and I am pleased with the direction and goals the board has established for our district. We are committed to providing high quality education for all students, with academic options that allow each student to meet their individual needs. I am a strong believer that everyone has a right to an education, and I value the education my own two children are receiving in the Dayton School District. I graduated from Dayton High School, and my husband and I currently operate a small business in this community. I am committed to this community, and to the Dayton School District.

PRIOR GOVERNMENTAL EXPERIENCE: Dayton Grade School Site Council. Dayton School District School Board Position 1 year term.

I strongly believe that education is the great equalizer in our country. Our community and our future depend on the quality of the education our children receive. One of the greatest gifts we can offer our children is the opportunity to obtain a high caliber education that will prepare them for the future. As a graduate of Dayton High School I know firsthand how fortunate we are to have quality educators, supportive administrators, dedicated students, and a close knit community. During the past year I have had the privilege to serve as a school board member and have gained a greater understanding of the important role parents, educators, and teachers play in the success of our children.

I believe our students should be challenged and our educators held to a high standard. Furthermore, I believe school board members should be expected to keep the interest of our students and community in mind when making decisions. By doing so, we ensure success in the future of our students.

PRIOR GOVERNMENTAL EXPERIENCE: Dayton School District Budget Committee, 1992-93; Dayton School Board Member, 1993 to present; Chairman, Dayton School Board, 1995-97, and 2001-2003

Serving on the Dayton School Board has allowed me to work with board members and the community to improve our educational services and facilities. A large part of our success has been because of the close connection between school and community.

There is more work to be done, and the most pressing problems we face are the persistent and growing facility inadequacies. How we meet these needs will require thoughtful discussion and careful planning. This presents a great opportunity to think about the future needs of our students, and I look forward to continuing to be a part of that process.
