2. Consideration of possible contract options for wildlife control services.

There was discussion regarding options for wildlife control services including a cost share between the county and property owner. The county would provide an operator contact list and the services would be on a time available basis. Concern was raised regarding the availability of wildlife control operators in the county. There is a high demand for their services which come with significant and varied expenses. The USDA reports a high volume of calls from citizens who have not contacted the county. The USDA has received such a high volume of calls that they report not being able to give an estimate of the calls they receive because they have since stopped counting.
